What is the landscape of National Science Foundation (NSF) funding in Nebraska? At UNO? Find these answers and more on the publicly accessible NSF dashboard. The site offers interactive statistics and graphs displaying awards funded, institutions, funded, funding rates, proposals evaluated, etc. This is not only informative, but an invitation to increase Nebraska and UNO's footprint on external funding opportunities.

## **SourceLink Nebraska Official Launch**

Please join us on November 16th to celebrate the launch of SourceLink Nebraska!

**SourceLink Nebraska** connects aspiring entrepreneurs and business owners with resources to start, scale or accelerate their business in Nebraska.

Entrepreneurs and business owners can connect to the right resources during any time of the business life cycle, from startup, to access to capital, contracting and scaling for growth. SourceLink Nebraska offers a one-stop shop to help entrepreneurs and business owners grow and prosper.

If you are a business resource partner, SourceLink Nebraska allows you to reach a broader audience and connect to entrepreneurs and business owners that need your help. This means better coordination of efforts, more clients, and increased visibility.
