## WARNING!

### HOT WORK IN PROGRESS, WATCH FOR FIRE

This Hot Work Permit is required for any operation involving open flame or producing heat and/or sparks. This work includes, but is not limited to, welding, brazing, cutting, grinding, soldering, thawing pipe, torch-applied roofing, or chemical welding.

#### INSTRUCTIONS:

#### REQUIRED PRECAUTIONS CHECKLIST inspection

1. The person doing hot work indicate time started and post this PERMIT at the work location. After hot work, indicate time completed and leave permit posted during final fire watch by UNO public safety.

2. Fire Watch: The person doing the hot work **CANNOT** be the fire watch. Fire watch will continuously monitor during the hot work and one hour after the work is done. Before leaving the area, do a final inspection, sign the permit, leave the permit posted and notify the hot work authorizing supervisor about the completion of the work.

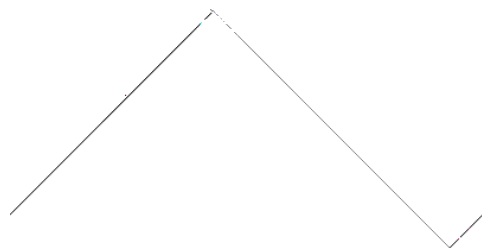

3. Public Safety: Monitor work area every hour for the next 4 hours. Pick up the permit at the last inspection and return the permit to Dispatcher for the log entry.

4. Public Safety Dispatcher: If no call is received from the supervisor, call the permit-issuing supervisor for work status verification.
